

Project title	Soil Erosion and Torrential Flood Prevention: Curriculum Development at the Universities of Western Balkan Countries
Project acronym	SETOF
Project reference number	598403-EPP-1-2018-1-RS-EPPKA2-CBHE-JP(2018-2579/001-001)
Coordinator	University of Belgrade
Project start date	November 15, 2018
Project duration	36 months

WP5: Dissemination of project results

Lead Organizations of WP5: **UNI, Republic of Srpska, BiH**

Deliverable **5.4**

Title : **Trainings plan defined and adopted**

Participating Organization: **UB; UNS; UBL; UNSA; INSZASUM; SCE;FMU; CPCZF**

Consultation with the project partners regarding training plan specific needs and circumstances

Questionnaire

PREFACE

SETOF Project Document defined **increased education of local self-governments for soil erosion and torrential flood protection** as one of the Specific Project Objectives. To that end, the dissemination at the local level would be organized through contacting local communities, i.e. the engineers employed in the enterprises in the water and forestry sectors, as well as local authorities. Training would be organized through expert lectures in the Chamber of Engineers and companies, as follows:

- Training for employees in 13 local authorities (Serbia 9, B&H 4):
 - Initial plan: August 2020 to February 2021.
- Training for companies in the water and forestry sectors (120 engineers in enterprises and Chamber of engineers):
 - Initial plan: July to October 2020 and February to July 2021.

As a WP5 leader, UNI will prepare a training plan, to be adopted by the PMC and the SC.

Currently, numerous challenges occur due to the current situation mostly connected with the COVID 19 epidemics. The following questions emerged as the most important for the development of the Training plan:

- How to organize dissemination in the COVID era? (Face-to-face, or online, or something else?)
- What to cover for a different audience?

Possible approaches include:

- To proceed with activities originally planned;
- To proceed with planned activities, shifting to the on-line by using zoom or another platform;
- To re-plan the dissemination, by changing the dissemination channel.

	Possibility of realization	Challenges	Preconditions
Proceed with activities originally planned	Extremely low due to the pandemics and possible lockdown	There is a good chance that the planned activities cannot be implemented in scheduled time; might be chaos in re-scheduling;	

Proceed with planned activities by shifting to the on-line	Possible, but limited	It will be difficult to provide an adequate number of interested people;	
Change dissemination channel – dissemination through drafted manuals for stakeholders	High	Extended time and efforts for preparation; It is necessary to get approval from Brussels for changes in the project;	Brussels approval (project coordinator, as soon as possible); Urgent agreement on details;

1. Please propose your preference for the most convenient mode of project result dissemination in the current and/or expected epidemics conditions **for the training for local self-government** (9 in Serbia and 4 in B&H, expected in winter 2020/21) by ticking the appropriate box¹:

Proceed with originally planned activities, i.e. organize face-to-face training in local communities

13 one-day training in 13 LGs (9 in Serbia and 4 in B&H), each delivered by "local" project partners, to avoid cross-border travel;
1 one-day training in Serbia (for 9 LGs each) and 1 one-day training in B&H (for 4 LGs);

Please propose the host city (Serbia) - I

Please propose the host city (B&H)

2 one-day training in Serbia (for 5 LGs each) and one one-day training in B&H (for 4 LGs); each delivered by "local" project partners, to avoid cross-border travel;

Please propose the host city (Serbia) - I

Please propose the host city (Serbia) - II

Please propose the host city (B&H)

Proceed with planned activities by shifting to the distance learning (on-line, by using Zoom or similar platform)

13 one-day training in 13 LGs (9 in Serbia and 4 in B&H);

1 one-day training in Serbia (for 9 LGs each) and 1 one-day training in B&H (for 4 LGs);

2 one-day training in Serbia (for 5 LGs each) and one one-day training in B&H (for 4 LGs);

Schedule different than above mentioned (please explain):

¹ Double click on the box, than click on the "Cheked" option.

Project number: 598403-EPP-1-2018-1-RS-EPPKA2-CBHE-JP (2018 – 2579 / 001 – 001)

"This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein"

-
- Dissemination through drafted manuals for stakeholders – produce and distribute manual(s) for different target groups (local governments; engineers in public and private companies, etc), without training (please note that the purpose of those manuals should not be the dissemination, but knowledge sharing and/or teaching)
-

Topics to be provided (please list):

Additional comments:

--

2. Please propose your preference for the most convenient mode of project result dissemination in the current and/or expected epidemics conditions **for the training for practitioners in companies** in the water and forestry sectors by ticking the appropriate box²:

Proceed with originally planned activities, i.e. organize face-to-face training with the support of the Chamber of engineers

1 one-day training in Serbia and 1 one-day training in B&H;

Please propose the host city (Serbia) - I
